

THE ROF NETWORK PRESENTS

THE ROF GROWTH SYSTEM

A 6-Step System to Attract, Qualify & Convert High-Value Clients — Predictably.

The ROF GROWTH SYSTEM is THE ROF NETWORK's flagship growth product. It combines deep customer intelligence, precision paid media, irresistible offer architecture, conversion-optimised funnels, a CRM-powered sales engine — all measured in real-time ROI.

01 PERSONA	02 PLATFORM	03 OFFER	04 FUNNEL	05 SALES PROCESS	06 OPTIMISATION
------------	-------------	----------	-----------	---------------------	-----------------

THE PROBLEM

Most Businesses Are Leaving Revenue on the Table

Your sales team is busy. But busy isn't the same as productive. Without a system, growth is unpredictable — you don't know which levers to pull, which leads are worth your time, or what's actually working.

- × **No Persona Clarity** — Chasing the wrong prospects wastes ad spend and sales hours.
- × **Weak Offer Architecture** — Trust is low online. Going straight for the sale kills conversion.
- × **No Qualification System** — Sales teams spend time on leads that will never close.
- × **Spreadsheet CRM** — No follow-up automation, no insight into lead sources, no ROI visibility.
- × **No Funnel — Just a Website** — Websites convert at 1–3%. A dedicated sales funnel converts at 5–10%.
- × **No Optimisation Loop** — Without data, the same mistakes repeat indefinitely.

The ROF GROWTH SYSTEM solves all six. In one integrated system.

THE PRODUCT

The ROF GROWTH SYSTEM — 6-Step Overview

01	The Persona Formula Define your dream client, qualify them precisely, craft messaging that speaks directly to their pain.
02	The Platform Choose the right channels — Google, YouTube, Meta, LinkedIn — based on your persona's awareness level.
03	The Offer Build an irresistible value ladder from free/low-cost entry to high-ticket engagement.
04	The Sales Funnel A 3-step conversion funnel: Sales Landing Page → Qualifier Pop-up → Thank You Page — integrated with CRM.
05	The Sales Process Custom CRM + UTM tracking so your sales team only touches qualified leads — and you see where every lead comes from.
06	Optimisation Continuous 90-day sprint cycles using a Traffic Light System to improve results month over month.

01

The Persona Formula

Every great marketing system begins with absolute clarity on who you are talking to. We call this your Persona — your dream client.

WHAT WE BUILD WITH YOU

- **Dream Client Persona Sheet** — Who is your ideal customer? What makes them a qualified lead? What are their deepest pain points?
- **80/20 Biggest Spender Profile** — Demographics (gender, age, location), buying triggers, and the persona's desired outcome.
- **Lead Qualification Framework (BANT)** — Defines what makes a lead qualified vs. disqualified: Budget, Authority, Need, Timing.
- **Dream Client Dashboard** — A living document that guides every platform, creative, and copy decision.

FIGURE 1 — Persona & BANT Qualification Framework

DIMENSION	QUALIFIED LEAD	DISQUALIFIED LEAD
Budget	Has an allocated marketing budget (minimum R5 000/mo)	No budget allocated or unclear
Authority	Decision-maker or has sign-off power	Junior staff, no purchasing authority
Need	Actively struggling with lead generation or sales conversion	Happy with current system / no urgency
Timing	Ready to start within 30 days	Exploring for 6+ months with no commitment
Gender / Age	Business owner, 28–55, growth-stage SME	Does not match ICP profile
Location	South Africa (primary), SADC region	Outside target geography
Trigger Event	Hired sales staff, launched new product, or hitting growth ceiling	No identifiable trigger event

Fig. 1 — BANT Qualification Framework. Qualified leads are green; disqualified leads are red.
Drawn from your Persona Sheet — completed in Step 1, applied to the funnel pop-up in Step 4.

FIGURE 2 — Core Marketing Message Sheet

Once the persona is defined, we complete your Core Marketing Message — the statement of value that speaks directly to pain and positions your solution as the only logical answer.

ELEMENT	FORMULA / EXAMPLE	PURPOSE
Statement of Value	[Product/Service] helps [Persona] achieve [Desire] without [Exclusive Qualifier]	Positions your offer and filters bad-fit prospects instantly
False Solution / Old Way	e.g. 'Boosting posts on Facebook doesn't bring qualified leads'	Creates problem awareness and contrast

Core Problem Statement	e.g. 'Your sales team is busy but revenue is unpredictable'	Names the pain — persona recognises themselves
Objections (Yes, but...)	e.g. 'I've tried ads before and they didn't work'	Handle pre-emptively so the ad still gets the click
Exclusive Qualifier	Who it is NOT for — increases desire for those it IS for	Repels bad leads. Attracts ideal ones.
Inclusive Qualifier	Who it IS for — spoken in the persona's language	Confirms belonging. Builds trust immediately.

Fig. 2 — Core Marketing Message Sheet.

This sheet is the single source of truth for all ad copy, landing page copy, and sales scripts.

FIGURE 3 — ROF Network Prospect Scoring Matrix

PROSPECT DESCRIPTION	UNQUALIFIED	NOT RIGHT	TOO QUALIFIED
Has marketing budget (R5k+/mo)	×	—	✓
Has authority to sign contracts	×	×	✓
Has a defined sales team or process	—	×	✓
Actively running paid ads already	×	—	✓
Has urgency — growth event in < 30 days	×	×	✓
Content idea alignment (B2B / B2C SME)	—	—	✓

Fig. 3 — Prospect Scoring Matrix.

Applied at first contact to determine which column a lead falls into. Only 'Not Right' and 'Too Qualified' enter the funnel.

Once these foundations are in place, the system repels bad leads automatically and attracts high-quality, ready-to-buy prospects — before a single rand is spent on ads.

02

The Platform

Now that we know who we're targeting, we choose the right platform to reach them. Platform selection is driven by where your persona sits in their awareness journey.

FIGURE 4 — Awareness Level → Platform Decision Framework

AWARENESS LEVEL	% OF MARKET	PLATFORM	LEAD QUALITY	COST
Unaware	~50%	Social Media (Meta / Instagram)	Low	High CPL
Consideration	~15%	Google Display / YouTube Retarget	Medium	Medium CPL
Problem Aware	~35%	Google Search + YouTube Intent	HIGH	Lowest CPL

Fig. 4 — Awareness Level to Platform Decision Framework.

We allocate the majority of budget to the Problem Aware segment. Social media is used for retargeting only.

FIGURE 5 — YouTube Targeting Research Sheet (Example)

TARGETING TYPE	EXAMPLES	RESEARCH SOURCE
Pain-State Keywords	'how to get more clients', 'google ads agency SA'	Google Keyword Planner
Competitor Names	'[Competitor Agency Name] review', '[Comp] pricing'	Manual competitor research
Competitor Websites	All major SA digital agency domains	Google / SimilarWeb
Indirect Websites	Marketing blogs, SME business forums, Chamber sites	Google search + Ahrefs
YouTube Videos	Videos: 'how to run google ads', 'digital marketing SA'	YouTube Search
Industry Keywords	Your industry + 'challenges', 'solutions', 'growth'	Keyword planner + client brief

Fig. 5 — YouTube Targeting Research Sheet.

Completed before any ad goes live. YouTube targeting is driven by Google data — the most powerful closed-loop retargeting available.

FIGURE 6 — Google + YouTube Combined: Impact Summary

METRIC	GOOGLE SEARCH ONLY	GOOGLE + YOUTUBE	IMPROVEMENT
Lead Quality	Medium	High	+40–60%
Cost Per Lead (CPL)	R800–R1 200	R400–R700	↓ 35–50%
Lead to Sale Speed	Slow (days–weeks)	Fast (hours–days)	3–5× faster
ROI	Baseline	Higher	↑ 2–3× ROAS
Brand Recall	Low	High	↑ trust & CTR

Fig. 6 — Google + YouTube Combined Impact vs. Google alone.

When both platforms work together: higher lead quality, lower cost per lead, faster lead-to-sale cycle, better ROI.

03

The Offer

Trust is low online. The likelihood of someone clicking an ad and immediately buying is low. We never go straight for the sale. We lead with value first — using the Value Ladder Formula.

FIGURE 7 — Value Ladder Framework

TIER	PRICE	WHAT IT IS	FUNCTION
Free / Low	R0 – R\$	Lead magnet, free audit, 30-min strategy call, discount voucher	Zero friction entry. Builds trust and grows list.
Core Offer	R\$\$	Primary service / product	Profitable, signature solution.
Premium	R\$\$\$	Retainer, upgraded delivery, add-on services	Higher value. Deeper relationship.
High Ticket	R\$\$\$\$	Done-for-you, VIP access, exclusive retainer	Maximum lifetime value per client.

Fig. 7 — Value Ladder Framework.

We identify where your current offer sits on this ladder, then design entry points that reduce risk for the prospect and increase conversion rates.

FIGURE 8 — Offer Formula (with worked example)

We use a 4-part formula to build irresistible offers: **Offer Name + Promise (as Outcome) + Guarantee + Urgency**. Below is a worked example for a business coach / mortgage counsellor client:

OFFER ELEMENT	LOW RISK OFFER	MEDIUM RISK OFFER	HIGH RISK OFFER
Offer Name	Free 30-Minute Growth Session	The ROF GROWTH SYSTEM Starter Pack	Done-For-You ROF GROWTH SYSTEM (90 Days)
Promise	Walk away with 3 growth strategies you can implement immediately	Generate your first 10 qualified leads in 30 days	A predictable pipeline of qualified leads — guaranteed
Guarantee	100% Free — No obligation	Money-back if no leads in 30 days	We run campaigns until we hit your agreed CPL target
Urgency	Only 5 spots per week	Price increases next month	Only 3 DFY clients accepted per quarter
Risk Level	Zero	Low–Medium	Medium (high reward)
Best For	Unaware / Consideration prospects	Problem-aware, budget confirmed	Ready buyer, decision-maker with budget

Fig. 8 — Offer Formula with 3-tier worked example.

Ideally all 3 offers are tested based on your client's risk appetite. The offer that gets clicks, drops lead price, and differentiates your agency becomes your primary offer.

04

The Sales Funnel

Most businesses send traffic to their website. Websites convert at 1–3% and create friction. We build a dedicated 3-step Sales Funnel that converts at 5–10% and works alongside your website — separate, focused, and purpose-built to convert.

FIGURE 9 — 3-Step Sales Funnel Architecture

STEP	COMPONENT	CONVERSION ROLE	TARGET
Step 1	Sales Landing Page	Picks up where the ad left off. No header nav — zero friction. 95% of copy aligned to persona pain + desired outcome.	5–10% page conversion
Step 2	Qualifier Pop-up	BANT qualification questions appear. Leads auto-scored. Sales team notified of qualified leads only.	Filters 70–80% of bad leads
Step 3	Thank You Page	Moves client to next action (book a call, download resource). 5–10% will call directly from this page.	5–10% inbound call rate
Step 4	CRM System	Qualified lead data flows into CRM. Follow-up sequences trigger automatically (WhatsApp, email, SMS).	< 5 min response time

Fig. 9 — 3-Step Sales Funnel Architecture.

The funnel is separate from the website. It converts 2–5× better because it has no distractions — every element exists to move the visitor to the next step.

FIGURE 10 — Website vs. Sales Funnel: Performance Comparison

DIMENSION	STANDARD WEBSITE	TRN SALES FUNNEL
Conversion Rate	1–3%	5–10%
Navigation Options	Many (distraction)	Zero (one CTA only)
Copy Focus	General company info	100% persona pain + desired outcome
Lead Qualification	None	Built-in pop-up qualifier
CRM Integration	Usually none	Automatic lead push to CRM
Follow-up Automation	None	WhatsApp + email + SMS sequences
ROI Visibility	None	Full UTM + CRM dashboard

Fig. 10 — Website vs. TRN Sales Funnel.

Red = underperforming. Green = what the funnel delivers. Funnels convert 2–5× better than standard websites.

05

The Sales Process

This is where most agencies stop. We don't. We build the infrastructure that connects your marketing to your sales team — with full visibility into every lead, every stage, and every rand of ROI.

FIGURE 11 — Spreadsheet CRM vs. TRN Custom CRM

CAPABILITY	SPREADSHEET (STATUS QUO)	TRN CUSTOM CRM
Lead contact speed	Hours or days	Automated — < 5 minutes
Lead qualification visibility	None	Qualified vs. unqualified flagged instantly
Sales pipeline tracking	Manual, error-prone	Stage-by-stage pipeline view
Follow-up automation	None	WhatsApp, email, SMS sequences built-in
UTM / source tracking	None	Every lead tagged by source, platform, ad
ROI dashboard	None	Live Sales × Marketing dashboard
Lead source to sale visibility	None	Full attribution — see which ad closed the deal
Database import	N/A	Existing database imported from day one

Fig. 11 — Spreadsheet CRM vs. TRN Custom CRM.

Red = what most businesses are using today. Green = what we build for you.

FIGURE 12 — UTM Tracking: What It Is & What It Shows You

UTM PARAMETER	WHAT IT TRACKS	EXAMPLE
utm_source	Which platform sent the lead	google / youtube / facebook
utm_medium	The type of traffic	cpc / display / video
utm_campaign	Which campaign the lead came from	persona_pain_march_2026
utm_content	Which specific ad / creative	video_ad_v2 / carousel_a
utm_term	Which keyword triggered the ad	'digital marketing agency johannesburg'

Fig. 12 — UTM Tracking Parameters.

UTM codes are added to all ad links. When a lead converts, you can see exactly which ad, platform, keyword, and campaign generated that sale — so you allocate budget to what actually works.

06

Optimisation

The ROF GROWTH SYSTEM doesn't stop at launch. This process never ends. We use a 90-day sprint methodology and a Traffic Light System to continuously improve results.

FIGURE 13 — The Traffic Light Machine

SIGNAL	WHAT IT MEANS	ACTION
GREEN	Underspending on a winning campaign.	Increase ad spend. Double down.
RED — Ad CTR	CTR is low — ad creative not compelling enough.	Fix targeting or creative. Test new hook. Drop campaign if no improvement in 90 days.
RED — Landing Page	Page visits but no leads — low conversion.	Improve incentive. Test headline. Rewrite CTA.
RED — Thank You Page	Leads submitting but not calling.	Add urgency, social proof, or a stronger CTA on the Thank You page.
RED — Sales	Leads arriving but not closing.	Audit sales scripts. Ensure team responds < 5 min. Improve follow-up cadence.

Fig. 13 — The Traffic Light Machine.

Used every 90 days to identify the single biggest bottleneck and fix it — one variable at a time.

FIGURE 14 — Green Machine vs. Red Machine (Worked Example, 90 Days)

Below is a real-world comparison of a campaign in its first 90 days (Red Machine) vs. the same campaign after one optimisation sprint (Green Machine):

METRIC	RED MACHINE (Day 1–90)	GREEN MACHINE (Day 91–180)	CHANGE
Ad Spend	R17 500/mo	R17 500/mo	Same
Ad CTR	0.7%	1.5%	+114% ↑
Landing Page Conv. Rate	7.15%	12%+	+68% ↑
Thank You Page Calls	12.25%	25%+	+104% ↑
Leads Generated	25	50+	+100% ↑
Lead Rate	25%	40%+	+60% ↑
Inbound Calls	25	40+	+60% ↑
Sales Closed	0	8+	From 0 ↑
ROI	5.97×	13.33×	+123% ↑

Fig. 14 — Green Machine vs. Red Machine (90-day optimisation cycle, worked example).

Red column = baseline campaign. Green column = same spend after one 90-day sprint. One variable optimised at a time using the Traffic Light System.

FIGURE 15 — Sales ROI Marketing Dashboard (Monthly Tracking View)

As the sales team updates the CRM, we update the marketing dashboard in real time. Below is the standard monthly tracking view used across all ROF GROWTH SYSTEM clients:

METRIC	JAN	FEB	MAR	APR	TARGET
Google Ad Spend	R10 000	—	—	—	R10 000/mo
Impressions	100 000	—	—	—	100 000+
CPM (Cost/1000 impressions)	R100.00	—	—	—	< R100
Clicks / CTR	100 / 1.01%	—	—	—	> 1.5%
Landing Page Views	70	—	—	—	—
Leads Generated	15	—	—	—	25+
Cost Per Lead (CPL)	R666.67	—	—	—	< R400
Funnel Conversion Rate	21.43%	—	—	—	> 30%
Sales Closed	2	—	—	—	5+
Cost Per Acquisition (CPA)	R5 000	—	—	—	< R2 000
Revenue on Ad Spend (ROAS)	10.11×	—	—	—	> 13×
ROI (Revenue / Ad Spend)	10.11×	—	—	—	> 13×

Fig. 15 — Monthly Sales ROI Marketing Dashboard.

Figures from client Jan baseline (first month). Columns for Feb–Apr are filled as the campaign runs. Green target column defines the benchmark we optimise toward.

HOW WE START

The Missed Revenue Audit

Before we build anything, we do a free Missed Revenue Audit. We analyse your current system and show you the 6 places where revenue is leaking — and exactly how much you're leaving on the table every month.

Missed Revenue Audit	We analyse your current marketing and sales setup — showing you 6 possible revenue leaks and how much you are leaving on the table monthly.
Hidden Profit Opportunities	We identify 1–2 of the biggest revenue gaps in your system that can take you from where you are to R200 000+ per month.
Lead Flow State-of-Start Plan	A customised game plan showing exactly how The ROF GROWTH SYSTEM system applies to your specific business — before you commit to anything.

"This process never ends — results get better every sprint."

THE ROF NETWORK · Digital Marketing Agency · Johannesburg, South Africa
